Online Tee Time Booking System

As more and more golfers are searching for their next game online, isn't it time your club used a system to create the right online presence? A One Golf Network tee time management system ensures that golf clubs are ready to face the new era of selling times through the internet.

Endorsed by the English Golf Union and the Golf Union of Wales, the One Golf Network tee time management system has been developed to help clubs meet the tough challenges of today's market head on and maximise their revenues.

"The One Golf Network system offers a capable and flexible system for clubs to manage their tee times and increase their green fee yields."

Why does your club need a Tee Time Booking System?

With membership numbers declining, more golf clubs are relying on visitors to replace lost revenue. The One Golf Network system has been designed to provide clubs with the most complete functionality coupled with ease of use. It will keep pace with your club's requirements and can be used as much or as little as your business needs. Uploading tee times through One Golf Network need not interfere with your member playing patterns. You can operate a dual system so that you can simply market the tee times that are available to visitors.

Key features of the Tee Time Booking System

The One Golf Network tee time booking system gives you all the functionality you need to fully manage and market all or just some of your tee times online. It has a host of clever features to enable you to take all types of online bookings – member, visitor or society and deposit payments online. The One Golf Network system is completely secure and is password protected so only authorised staff can access information within the system.

Listed below are just some of the core features of the system but to see more details head to www.onegolfnetwork.co.uk.

- ✓ Easily adaptable tee sheet set up to suit the unique requirements of your golf club
- ✓ Completely secure with unique user names and passwords
- ✓ Control green fee rates, packages and availability by visitor player category
- ✓ Make available multiple different green fees, promotional discounts and packages per tee time to suit all players – players within the same group can even purchase different green fees for ultimate price flexibility
- ✓ Manage member details – add and delete members
- ✓ Manage group and society bookings easily – with returning society features, multiple tee time selection, flexible package selection or bespoke package creation
- ✓ Season based set up so you can make quick changes to your tee sheet, pricing and booking rules as the playing year unfolds
- ✓ Restrict access to tee times by membership category as required
- ✓ Automatically capture and store visitor data within the booking process
- ✓ Incremental tee sheet build – create tee times for the year(s) ahead or a short period in advance
- ✓ Members take control of their golf, making reservations online for themselves, playing partners and guests
- ✓ Real time booking – benefit from multiple high profile distribution channels but without the risk of double booking
- ✓ Email booking confirmation sent to the lead player.
